1. Introduction

1.1 Background/foreword

1.1.1 NHS England has set out the following as the four core purposes of ICSs:

- a) improve outcomes in population health and healthcare
- b) tackle inequalities in outcomes, experience and access
- c) enhance productivity and value for money
- d) help the NHS support broader social and economic development.

The ICB will use its resources and powers to achieve demonstrable progress on these aims, collaborating to tackle complex challenges, including:

- improving the health of children and young people
- supporting people to stay well and independent
- acting sooner to help those with preventable conditions
- supporting those with long-term conditions or mental health issues
- caring for those with multiple needs as populations age
- getting the best from collective resources so people get care as quickly as possible.

1.1.2 The Humber and North Yorkshire Health and Care Partnership comprises of the NHS, the top tier local authorities and other health and care providers, including the voluntary, community and social enterprise sectors. It covers a geographical area of more than 1500 square miles taking in cities, market towns and remote rural and coastal communities.

1.1.3 The Partnership operates as an Integrated Care System (ICS) and collaborates to achieve the triple aim of:

- a) better health and wellbeing for everyone,
- b) better care for all people, and
- c) the sustainable use of resources.

1.1.4 The vision of the Partnership is to improve the health and wellbeing of our people and address inequalities in our communities, with the aim of ensuring that local people are able to start well, live well, age well and end life well.

1.1.5 The Partnership has also agreed a core set of shared leadership principles that underpins all of its work. These can be found here www.humberandnorthyorkshire.icb.nhs.uk.

1.1.6 As a Partnership, our endorsed and agreed operating arrangements are based on an NHS Integrated Care Board as set out in 1.1.7 and the following:
