Humber and North Yorkshire Integrated Care Board Integrated Impact Assessment

Title of Scheme/Project:	Humber Acute Service Programme - proposal to bring some more complex medical, urgent and emergency care services together at Diana Princess of Wales Hospital, Grimsby (DPoW)
Project Manager:	Beth Norvock
Clinical Lead:	Anwer Qureshi
Programme Lead:	Linsay Cunningham
Senior Responsible Officer (SRO):	Ivan McConnell
Finance Lead:	Brian Shipley
Quality Lead:	Karl Portz
Equality Lead:	
Business Intelligence Lead:	multiple

Proposed change

The decision-making business case sets out a proposed new model of care for (hospital-based) urgent and emergency care and paediatric services across Northern Lincolnshire - for care that is needed unexpectedly.

Within the proposed new model of care, the following specialist services would be consolidated at a single hospital in Northern Lincolnshire: •Trauma Unit consolidated at DPoW

•Specialist Medical Inpatients (for longer stays >72 hours) consolidated at DPoW

•Acute Surgery Inpatients (>24 hours or requiring overnight surgery)

- consolidation of Trauma and Orthopaedics, General Surgery (including colorectal and upper GI) and ENT specialties at DPoW
- consolidation of Urology at Scunthorpe General Hospital (SGH)
- consolidation of surgical emergency patients in Ophthalmology at Hull Royal Infirmary (HRI)

Other services, including urgent and emergency care for most patients, would continue to be provided at both hospitals (SGH and DPoW).

The following services would continue to be provided at both hospitals in Northern Lincolnshire:

•Urgent and emergency care from a 24/7 Emergency Department, assessment unit and short stay (up to 72 hours)

Day case emergency surgery

•Longer stay inpatient care for elderly and general medical patients

•Paediatric Assessment Unit (up to 24 hours) and inpatient paediatric services

Maternity and neonatal care

•Planned care services, including surgery, diagnostics and outpatient services (some of which may be provided in a community location e.g. GP surgery or Community Diagnostic Centre)

Services at Hull Royal Infirmary (HRI), Castle Hill Hospital (CHH) and Goole and District Hospital (GDH) would continue as is.

Summary of impacts graph

Note that scores above zero indicate positive impact and below zero indicate negative impact

Summary of findings The proposed service change will deliver a number of key benefits:

Patient experience – less time spent in hospital, quicker access to specialist care, reduced waiting times for treatment.

Patient safety – improved quality of specialist care, fewer delays, better clinical outcomes.

Clinical effectiveness – improved flow and effectiveness of clinical pathways and ability to meet national clinical standards to provide 7-day consultantled care

• Equalities – reduction in underlying health inequalities by improving quality of specialist care and clinical outcomes for those most at risk.

 Workforce – improved recruitment, retention and training opportunities for staff. more sustainable ion of exist

model of car and ma Sustainability

The proposed service change (without mitigations) could have a negative impact on:

- Patient experience increased stress and anxiety associated with transfers and due to increased difficulty for loved ones to visit.
- Description Patient safety possible delays to treatment if transport or specialist beds are unavailable.
- Clinical effectiveness difficulty for mental health and social care providers to provide in-reach and/or continuity of care to out of area patients.
- □ Equalities Negative impacts associated with transfer/travelling are likely to have a bigger impact on:
- People living in more deprived communities
- Older people
- Disabled people and people with autism and/or learning disabilities
- □ Carers
- \square People for whom English is not their first language.
- Workforce impact on staff required to travel cross-site, including impact of uncertainty associated with change process.
- Sustainability impact on environment of increased journeys associated with patient transfers and longer/additional patient journeys.

Initial Impact Assessment - Screening Tool This is an initial assessment which will help determine whether a more detailed assessment is required. Please select yes or no for each row from the drop down options

Will the proposal have an impact on:	Yes or No	If yes please complete the relevant section of the tool:	Tab colour:
Patient experience	Yes	Patient Experience	
Patient safety	Yes	Patient Safety	
Clinical Effectiveness	Yes	Clinical Effectiveness	
People with one or more protected characteristics	Yes	<u>Equality</u>	
Staffing within the service area or the wider workforce	Yes	Workforce	
Sustainability	Yes	<u>Sustainability</u>	
If you have answered yes to any of the above questions, in addition to tl	Finance		
section you must also complete the Finance, Engagement and Data Pro		<u>Engagement</u>	
		Data Protection	

In addition please consider if the proposal will:		If you have answered yes to any question in this section:
Impact substantially on duties of Humber and North Yorkshire ICB (and partners)	Yes	
Directly affect the services received by patients, carers and families	Yes	Full assessment is required
Be likely to result in political, consumer champion or media interest or has already had significant public interest	Yes	
Impact those eligible to access the service e.g. by changing referral criteria/method of access/where or when service will be delivered	Yes	

Additional considerations:	
What is the size of the impact on people (i.e. how many are affected)	2,596 patients (per annum) in North Lincolnshire and surrounding areas (including West Lindsey and East Riding of Yorkshire).
Which localities / populations are most affected	North Lincolnshire, Goole and surrounding villages

Patient safety positive rating	4	4	16
Patient safety negative rating	-2	2	-4

Description of positive impacts (must include rationale and be evidence based)	How will these impacts be monitored
Urgent and Emergency Care	
The proposed changes will deliver improvements to patient safety by reducing the clinical risk associated with delays in senior clinical review for patients requiring more complex or specialist care.	
This will be achieved by • □ Delivering 7-day consultant-led care • Improved pathways through ED/AAU with access to senior decision-makers at the earliest stage in a patient's journey	Clinical incidents and SI reports. (Mortality reports)
The proposed changes will improve the safety and quality of care by ensuring patients with more complex needs have quicker access to specialist care provided by clinicians with the right skills and expertise. Direct transfers to specialist services will ensure more patients get directly to the optimum place for their clinical needs.	Quality governance (internal audits) Patient feedback (FFT)
The proposed model will deliver improvements to patient safety by providing a more stable and resilient workforce with increased opportunities to train and develop skills. • By concentrating the workforce into fewer locations for the most specialist care, those delivering specialist services will have more opportunities to develop their skills, treat a higher number of complex cases and a wider variety of experiences. • Better utilisation and deployment of the workforce is expected to deliver a reduced reliance on locums, agency and temporary staff.	Staff turnover rates Agency/locum usage

			2	
Description of negative impacts	Mitigating actions of negative impacts	How will this action be monitored	How often will this action be reviewed	Lead
Urgent and Emergency Care				
The proposed changes could result in increased risk to patients who require access to specialist input if a delay to transfer is incurred (e.g., due to lack of staff/ambulances).	Both hospitals will maintain a 24/7 Emergency Department and critical care service to ensure patients can be stabilised and cared for by expert ED teams as required. Inter-hospital transport services which are right-sized to meet anticipated demand will be in place prior to implementation to reduce the likelihood of any delays to timely transfer between sites.	treatment	Weekly	Vicky Marshall - Care Group Operations Director; Acute and Emergency Medicine
The proposed changes could result in increased risk to patients if their condition deteriorates on route.	Both hospitals will maintain a 24/7 Emergency Department and critical care service to ensure patients can be stabilised prior to transfer. Emergency transfers will be undertaken by suitably qualified teams with appropriate skill mix.	SIs and clinical incidents recorded during transfer between sites	Monthly	Vicky Marshall - Care Group Operations Director; Acute and Emergency Medicine

Opportunity/Consequence Rating	Consequence	Likelihood	Total Score
Clinical effectiveness positive rating	4	5	20
Clinical effectiveness negative rating	-3	3	-9

Description of positive impacts (must include rationale and be evidence based)	How will these impacts be monitored
Urgent and Emergency Care	
The proposed changes will improve the clinical effectiveness of care by ensuring patients with more complex needs have quicker access to specialist care provided by clinicians with the right skills and expertise. This will include delivery of key clinical standards e.g., daily consultant review based on clinical need and consultant assessment within 14 hours of admission to determine the person's care pathway. This will support patients to be seen and treated more quickly and reduce length of stay in hospital.	Audit of compliance with clinical standards Reduction in Length of Stay (LoS)
The proposed model of care will improve flow through streamlined care pathways. This will be achieved by implementing direct transfer pathways for identified conditions, ensuring patients get to the right location to access specialist care first time - reducing delays to access treatment for those brought by ambulance. Streamlined pathways and reduced handovers within and between services will also deliver improved flow of patients through the hospital (and deliver reductions in length of stay).	A&E 4 hour performance Reduction in Length of Stay (LoS)
The proposed model of care will reduce the likelihood of service disruption and cancellation of elective patients due to pressures within urgent and emergency care (reduces impact for elective activity).	RTT performance On the day cancellation rates

Description of negative impacts	Mitigating actions of negative impacts	How will this action be monitored	How often will this action be reviewed	Lead
Urgent and emergency care				
The proposed changes could result in a delay in treatment for patients who require Trauma Unit level care who are not identified at source at taken directly to their nearest Trauma Unit (e.g., at the scene by ambulance service) or who self- present at Scunthorpe's Emergency Department (ED)	Trauma protocols will be reviewed with ambulance providers to ensure crews are fully aware of the new pathways prior to implementation. Clear protocols and transfer conditions will be in place with the Emergency Department, wards and ambulance providers to ensure patients are safely transferred when necessary. Inter-hospital transport services which are right-sized to meet anticipated demand will be in place prior to implementation. Both hospitals will maintain a 24/7 Emergency Department and critical care service to ensure patients can be stabilised and transferred as required.	Liaison with EMAS and YAS (to ensure protocols in place and working well) Review of trauma conveyances to identify volume of secondary transfers from SGH to DPoW for trauma patients SIs and clinical incidents recorded due to delay in treatment	6 months	Anwer Qureshi - Clinical Director; Acute and Emergency Medicine
The proposed changes could impact upon Emergency Department (ED) waiting times at DPoW due to increase in activity at the DPoW site.	Strict SOPS will be in place to transfer patients directly to specialist wards, bypassing ED. Wards at DPoW will be right-sized to meet demand. Transport protocols will be in place prior to implementation.	A&E 4-hour performance Review by operational leads to ensure effective bypassing of ED is in place	3 months	Vicky Marshall - Care Group Operations Director; Acute and Emergency Medicine
The proposed changes could make it more difficult for mental health / social care providers to provide ongoing care to North Lincolnshire, East Riding or Lincolnshire (out of area) patients who are transferred to DPoW for specialist care.	Implementation plan includes ongoing liaison with mental health providers, local authorities and social care teams to ensure pathways are in place to provide input as required for out of area patients (as happens already for patients in other consolidated or tertiary services)	Liaison with RDaSH and NL Council (to ensure protocols in place and working well)	6 months	Emma Mundey - Assistant Director of Transformation and Integration , HNY ICB, NL Place

Patient experience negative rating	-2	3	-6
<u>*See Impact Matrix tab for guidance</u>			

Description of positive impacts (must include rationale and be evidence based)	How will these impacts be monitored
Urgent and Emergency Care	
The proposed changes enable patients to continue to access 24/7 Emergency Department (ED) front door in both Scunthorpe and Grimsby and are not reliant on patients changing behaviour to access care.	Activity data (ED attendance by site)
The proposed changes will deliver improvements to patient experience, including: reduced waiting times quicker diagnoses reduced length of stay (LoS) in hospital and earlier discharge These improvements will be delivered by: provision of 7-day consultant led care changes to clinical pathways, which will enable patients with complex care needs to see a specialist earlier in their hospital journey workforce model (e.g. Consultant of the Week) which will provide increased continuity of care across the specialities as the patient navigates between the different parts of the health service 	A&E Performance RTT Performance Reduction in LoS Patient feedback (FFT)
The proposed changes will also increase confidence of patients by providing treatment and care in a specialist centre.	Patient feedback (FFT)

Description of negative impacts	Mitigating actions of negative impacts	How will this action be monitored	How often will this action be reviewed	Lead
Urgent and Emergency Care				
The proposed change is likely to result in increased stress and anxiety for patients and family members from North Lincolnshire and surrounding areas who need to be transferred from SGH to DPoW (approx. 8 patients per day on average), due to: •□Difficulty for visitors to travel to DPoW, especially those without access to a car (18.5% of households in North Lincolnshire) •□Difficulty for families who cannot afford to travel to visit a patient at DPoW due to the cost of petrol and/or cost of parking •□Difficulty for families to travel to visit a patient due to unaffordable and unreliable public transport links between hospital sites •□Difficulty for families to travel due to the distance and time taken to travel between sites and/or inconvenient visiting times.	Additional funding for community transport solution (provided by Humber and Wolds Rural Action) to support families who have no access to transport to visit loved ones in hospital. Clear communication for patients and their families to explain transfer process and expectations. Improved information about transport options and signposting to existing support that is available. Flexible visiting times and digital options to enable patients to communicate with family and friends who are unable to visit.	PALS and complaints data (to identify concerns raised regarding visitor transport) FFT (to identify concerns raised regarding visitor transport)	3 months	Melanie Sharp, Deputy Chief Nurse
Patients who need to transfer between sites (approx. 8 patients per day on average), may have increased stress and anxiety associated with the transfer itself. In particular, transfers may be stressful for patients who are more vulnerable to change or more impacted by being in an unfamiliar environment, such as people with dementia, people who are autistic or neurodiverse, people with learning difficulties etc.	Clear communication for patients and their families to ensure people are well informed and understand what is happening. Where possible communications will be co-produced with patient representatives and supporters. Slick processes in place to ensure quick transfer (no delays). Identification of people with additional support needs and use of flagging on Electronic Patient Record	PALS, complaints and FFT (to identify concerns raised regarding transfers)	3 months	Melanie Sharp, Deputy Chief Nurse
The proposed change may result in longer recovery times for some patients due to reduced access to relatives and visitors to support recovery.	Additional funding for community transport solution (provided by Humber and Wolds Rural Action) to support families who have no access to transport to visit loved ones in hospital. Clear communication for patients and their families to explain transfer process and expectations. Improved information about transport options and signposting to existing support that is available. Flexible visiting times and digital options to enable patients to communicate with family and friends who are unable to visit.	PALS, complaints and FFT (to identify concerns raised regarding transfers)	3 months	Melanie Sharp, Deputy Chief Nurse
The proposed change may exacerbate delays in patient discharges for out of area patients due to increased challenge putting in place care packages for patients who live in a different local authority area	Improvements to frailty pathway to reduce numbers of frail patients attending hosptial. Wherever possible, frail patients will be cared for on General Medical and Care of the Elderly wards on the SGH site and not transfer. Those that do transfer (e.g. for fractured NOF surgery) will be repatriated to SGH (if they cannot go straight home) for intense rehab and reablement closer to home. Ongoing collaborative working with Local Authorities through the Out of Hospital programme to improve discharges for out of area patients.	NCTR data - to identify out of area numbers	Monthly	Neil Rogers / Ashy Shanker, Site Managing Directors

Description of positive impacts (must in How will these impacts be monitored and be ev CORE 20 (socio-economic deprivation) Those living in the most deprived communities are at higher risk of hospitalisation due to hypertension and cardiovascular disease and more likely to require specialist cardiology care Consolidation of specialist cardiology services will improve outcomes for these patients by providing faster access to specialist care, helping to address the impact of underlying health Mortality rates for preventable deaths from CVD inequalities. Those living in the most deprived communities are at higher risk of hospitalisation and premature mortality due to respiratory conditions and are more likely to require specialist respiratory Mortality rates for preventable deaths from respiratory conditions care. Consolidation of the specialist services will improve outcomes for these patients by providing faster access to specialist respiratory care, helping to address the impact of underlying health inequalities. Bringing together specialist teams onto one site will enable them to work towards improved pathways and more holistic care, that is more responsive and better at supporting people with Re-admission rates multiple co-morbidities, helping to address underlying health inequalities. The proposed changes will contribute to the long-term sustainability of both Scunthorpe General Hospital and Diana Princess of Wales Hospital. The continued presence of both hospitals as anohor institutions will contribute to continued investment in the local economies of both major towns (Grimsby and Scunthorpe), helping to create opportunities for local people to GVA / job opportunities offered access well-paid jobs and rewarding career pathways in the hospital and wider supply chains. Age The proposed model of care will deliver improvements to fraility pathway to reduce numbers of frail patients attending hospital. The proposed changes help to ensure that, wherever Admission (and re-admission) rates for frail, elderly patients possible, frail patients will be cared for at home or as close to home as possible. Virtual ward utilisation rates for frailty Disability The proposed changes would deliver benefits to disabled people, people with learning disabilities and neurodivergent people by reducing the length of time they need to spend in hospital, helping to reduce the impact of a hospital admission. Length of Stay (LoS) Ethnicity There is strong evidence that people from Black, Asian and Minority Ethnic (BAME) backgrounds face greater health inequalities. This was highlighted through the COVID-19 pandemic, which had a disproportionate impact on BAME populations in terms of incidence of disease and mortality. Consolidation of specialist services will improve outcomes for these patients by Mortality rates for preventable deaths by ethnicity providing faster access to specialist care, reducing LoS and reduced waiting times helping to address the impact of underlying health inequalities. **Religion or Belief** No specific benefits to people based upon their religion or belief have been identified N/A Sex No specific benefits to people based upon their sex have been identified N/A Sexual Orientation No specific benefits to people based upon their sexual orientation have been identified N/A Gender Reassignment No specific benefits to people based upon their Gender Reassignment status have been identified N/A Carers The proposed changes would deliver benefits to carers by reducing the length of time they and/or the person they care for spends in hospital, helping to reduce the burden of an episode of illness on both the carer and the person they care for. Length of Stay (LoS) Any other Groups Sex Workers - The proposed changes would deliver improvemens by reducing waiting times for patients in ED (improved flow/co-located UCS). Sex workers told us during our engagement that waiting times are one of the main barriers when accessing care as they feel judged in waiting rooms, so if waiting for any length of time will get up and leave. This proposed model could reduce this barrier for this group of people. Ongoing engagement Asylum Seekers, Migrants and Refugees - Retaining 24/7 Emergency Department at both sites and standardising access / pathways across the Humber will make it easier for migrants, refugees and people for whom English is not their first language to know where to go for care. Ongoing engagement Homelessness - Bringing together specialist teams onto one site will enable them to work towards improved pathways and more holistic care, that is more responsive and better at supporting people with multiple co-morbidities, helping to address underlying health inequalities (see also CORE20 benefits). Mortality rates for preventable deaths Gypsy, Roma and traveller communities - Bringing together specialist teams onto one site will enable them to work towards improved pathways and more holistic care, that is more responsive and better at supporting people with multiple co-morbidities, helping to address underlying health inequalities (see also CORE20 benefits).

Mortality rates for preventable deaths

		How will this action be monitored	action be reviewed	Lead
Description of negative impacts	Mitigating actions of negative impacts			
CORE 20 (socio-economic deprivation)				
The proposed change is likely to result in increased stress and anxiety for patients and family members from North Lincolnshire and surrounding areas who need to be transferred from SGH to DPoW (approx. 8 patients per day on average). The cost burden of additional travel would be more significant for people living in the most deprived areas (including central Scunthorpe, Goole).	Additional funding for community transport solution (provided by Humber and Wolds Rural Action) to support families who have no access to transport to visit loved ones in hospital. Flexible visiting times and digital options to enable patients to communicate with family and friends who are unable to visit.	PALS and complaints data (to identify concerns raised regarding visitor transport) FFT (to identify concerns raised regarding visitor transport)	3 months	Melanie Sharp, Deputy Chief Nurse
People living in the most deprived neighbourhoods are more likely to face Digital Exclusion and therefore will not be able to realise the full benefits of virtual wards/ H@H etc.	Flexible approach is adopted by services - adapt to individual home circumstances (e.g., provision of kit if required or use low-tech options)	Hospital at Home useage (by area)	6 months	Tracey Means, Nurse Director Community, Frailty and Therapies
Age				
Older people make up a higher proportion of people in hospital compared with the population as a whole, as ill-health and likelihood of a hospital admission increases with age. However, the proposed changes are more likely to impact on younger cohorts of patients rather than older ones (when compared with the total hospital population).	Continued development of frailty model to further reduce instances of older people attending hospital	Attendances and admissions data (by age)	6 months	Lesley Windass, Humber and North Yorkshire ICB - Frailty Oversight Group
Older people are more likely to face barriers to travelling to visit loved ones in hospital (less likely to drive/own a car etc.)	Additional funding for community transport solution to support families who have no access to transport to visit loved ones in hospital - focus on supporting older residents.	Community Transport contract management information	6 months	ICB Contract lead
Disability				
People who are disabled are more likely to face barrier travelling to visit loved ones in hospital (e.g., people with sensory impairment or LD are less likely to drive/own a car).	Additional funding for community transport solution to support families who have no access to transport to visit loved ones in hospital - focus on supporting vulnerable residents.	Community Transport contract management information	6 months	ICB Contract lead

Patients who need to transfer between sites may have increased stress and anxiety associated with the transfer itself. Disabled and neurodivergent people could be more impacted by the transfer experience and face greater difficulties in adapting to change	Clear communication for patients and their families to ensure people are well informed and understand what is happening. Where possible communications will be co-produced with patient representatives and supporters.	PALS, complaints and FFT (to identify concerns raised regarding transport)	3 months	Melanie Sharp, Deputy Chief Nurse
	Slick processes in place to ensure quick transfer (no delays).			
Disabled people could face more barriers with discharges from hospital if they are admitted to DPoW when this is not their local hospital and delays waiting to be transported home	Ongoing collaborative working with Local Authorities through the Out of Hospital programme to improve discharges for out of area patients.	NCTR data - to identify out of area numbers	Monthly	Neil Rogers / Ashy Shanker, Site Managing Directors
Disabled people would be negatively impacted by the change if personal equipment that allows for independence when inpatient is lost or left behind when coming by ambulance to hospital or transferring to a different site.	Work with transport providers to resolve issues relating to equipment transfer to ensure disabled people maintain their independence.	IHT contract management information	6 months	Craig Hodgson, Associate Director of Commercial Services
Ethnicity				
The impact of additional travel to visit loved ones in hospital at DPoW is likely to be greater on people from Asian/Asian British backgrounds due to a higher concentration of these communities in and around central Scunthorpe.	Transport solutions (community transport + wider transport action plan) to support communities to access DPoW to visit loved ones.	PALS, complaints and FFT (to identify concerns raised regarding transport)	3 months	Melanie Sharp, Deputy Chief Nurse
Patients who need to transfer between sites may have increased stress and anxiety associated with the transfer itself. The impact is likely to be higher on people for whom English is not their first language.	Clear communication for patients and their families to ensure people are well informed and understand what is happening. Use of Language Line and other tools to support.	PALS, complaints and FFT (to identify concerns raised regarding transport) and proactive engagement	6 months	Melanie Sharp, Deputy Chief Nurse
Religion or Belief				
The impact of additional travel to visit loved ones in hospital at DPoW may be greater for Muslim women, who are less likely to drive or have access to a car, making it more difficult to visit a family member at DPoW.	Transport solutions (community transport + wider transport action plan) to support communities to access DPoW to visit loved ones.	PALS, complaints and FFT (to identify concerns raised regarding transport)	3 months	Melanie Sharp, Deputy Chief Nurse
Based on feedback from the Muslim community, a proportion of women are chaperoned by a male family member, which could be more difficult if care was further away, presenting a potential barrier to the provision of effective care.	Engagement and coproduction with Muslim communities to develop appropriate processes to ensure care can continue for any individuals impacted.	PALS, complaints and FFT (to identify concerns raised regarding transport) and proactive engagement	6 months	Melanie Sharp, Deputy Chief Nurse
Sex				
The impact of additional travel to visit loved ones in hospital at DPoW may be greater for women, who are more likely to be primary care givers.	Transport solutions (community transport + wider transport action plan) to support communities to access DPoW to visit loved ones.	PALS, complaints and FFT (to identify concerns raised regarding transport)	3 months	Melanie Sharp, Deputy Chief Nurse
Sexual Orientation				
No specifics negative impacts were identified for people based upon their sexual orientation.	N/A	N/A	N/A	N/A
Gender reassignment				
The impact of transferring to a different site for care could be greater for transgender people, for whom continuity of care is very important. (A different doctor/medical professional may not know/respect a person's journey, pronouns, triggers etc.). The proposed change could have a negative impact on mental health and anxiety levels of transgender people if they are moved to an unfamiliar town, away from their families and support circle.	Increase education and training for staff across all sites to improve experiences for transgender people.	PALS, complaints and FFT (to identify any specific concerns raised)	3 months	Melanie Sharp, Deputy Chief Nurse
Carers				
The impact of additional travel to visit loved ones in hospital at DPoW may be greater for carers, and in particular for those caring for more than one person (sandwich carers), who would have to travel further so that the people/person they look after could access care and/or to visit the person they care for should they be admitted to DPoW.	Transport solutions (community transport + wider transport action plan) to support communities to access DPoW to visit loved ones.	PALS, complaints and FFT (to identify concerns raised regarding transport)	3 months	Melanie Sharp, Deputy Chief Nurse
Any other Groups				
Sex Workers - Many sex workers won't get in an ambulance as they feel it resembles a police car and they are going to be judged by people in uniform. If these women are needing to be transferred from Scunthorpe to Grimsby this could have a negative impact and create further barriers and health inequalities.	Minimise numbers of transfers Work with transport providers to seek alternative to ensure safe transfer if required	Ongoing engagement	6 months	Melanie Sharp, Deputy Chief Nurse
Asylum Seekers - Many asylum seekers don't have the right paperwork to access means-tested benefits. Many don't drive or have access to a car. The impact of additional travel is likely to be higher for this group.	Transport solutions (community transport + wider transport action plan) to support communities to access DPoW to visit loved ones.	Ongoing engagement	6 months	Melanie Sharp, Deputy Chief Nurse
People affected by Homelessness; People in contact with justice system; Gypsy, Roma and traveller communities; Asylum Seekers and Refugees: Due to fear of being transferred to Grimsby people from these (and other) health inclusion groups might avoid seeking care or may leave against medical advice as they are not familiar with Grimsby and how they will be discharged. The proposed change could increase stress and anxiety for people within these health inclusion groups.	Clear communication for patients and their families to ensure people are well informed and understand what is happening. Where possible communications will be co-produced with patient representatives and supporters.	Ongoing engagement	7 months	Melanie Sharp, Deputy Chief Nurse
	Proactive communications campaign to reassure public.			

Workforce impact assessment

Description of positive impacts (must include rationale and be evidence based)	How will these impacts be monitored
Urgent and Emergency Care	
The proposed model has been designed to make the best use of limited workforce to remove duplication and maximise productivity.	Delivery of baseline 2019/20 activity
Enabling specialist staff to work in larger teams, improves resilience and enables us to design rotas to cover services that will be more attractive to current and future workforce. Better utilisation and deployment of the workforce and more desirable rotas will improve recruitment and retention, supporting a reduction in agencylicoum costs.	Agency spend Turnover Vacancy rates
By concentrating the workforce into fewer locations for the most specialist care, those delivering specialist services will have more opportunities to develop their skills, treat a higher number of complex cases and a wider variety of experiences. Better utilisation and deployment of the workforce will improve staff experience and provide more training and upskilling opportunities.	Staff appraisals and training records Doctors in training satisfaction surveys
Working as multi-disciplinary teams across pathways creates opportunities for different staff (GPs, specially doctors, allied health professionals, and advanced clinical practitioners) to develop their skills and provide effective and efficient care for our population.	Staff surveys Feedback from GPs/Primary Care

Description of negative impacts	Mitigating actions of negative impacts	How will this action be monitored	How often will this action be reviewed	Lead
Urgent and Emergency Care				
Consolidating specialist services at DPoW could impact on competencies and confidence of staff at SGH in dealing with more complex cases.		Staff appraisals and training records	6 months	Kate Wood, Group Chief Clinical Officer and Amanda Stanford, Group Chief Nurse
The proposed changes may deter staff living near SGH from remaining with the Trust and looking for alternative employment, due to: concerns about travel time; financial affordability and difficulty travelling between sites. This could impact upon the sustainability of services. The uncertainty associated with the change process itself may also cause staff to leave.	Ongoing regular communications with staff to provide reassurance and information about the proposed changes and timeline for implementation.	Turnover Exit interviews	3 months	Paul Bunyan, Director or Planning, Recruitment, Wellbeing and Improvement
Some staff may be required to work cross-site and/or at a different site to where they are currently based, potentially impacting upon quality of life/work-life balance and/or wider responsibilities. Staff who are required to travel further and/or more often may need to take more time of the attend personal appointments and/or manage wider responsibilities (e.g. caring responsibilities).	Formal consulation process for any directly impacted staff. Robust roster process with early identification of gaps in cover	Consultation process Carer's leave and other absence reporting	3 months	Paul Bunyan, Director or Planning, Recruitment, Wellbeing and Improvement

*See Impact Matrix tab for guidance

Description of positive impacts (must include rationale and be evidence based)	How will these impacts be monitored
Urgent and Emergency Care	
The proposed changes will improve service sustainability in the longer term.	Vacancy rates Quality measures (internal governance)
The proposed changes will support reductions in Length of Stay (LoS), helping to reduce the overall number of visitor journeys by reducing the length of time patients spend in hospital.	Length of Stay (LoS)
The proposed changes make best use of existing theatre and ward infrastructure thereby reducing the impact of building and construction.	Theatre utilisation Occupancy rates
The proposed changes deliver improved facilities for critical care, which are purpose-built and more sustainable.	Environmental audit

5

Description of negative impacts	Mitigating actions of negative impacts	How will this action be monitored	How often will this action be reviewed	Lead
Urgent and emergency care				
Additional journeys created by the change will increase CO2 admissions (including inter-hospital transfers and additional visitor journeys).	Include carbon reduction within the criteria for inter- hospital transport procurement and work with transport providers to reduce carbon-impact of their fleet. Reduce length of stay (to minimise additional visitor journeys).	IHT contract management information	6 months	Craig Hodgson, Associate Director of Commercial Services
Travelling to visit relatives or loved ones will be particularly challenging for those living in the most rural or isolated areas.	Additional funding for community transport solution to support families who have no access to transport to visit loved ones in hospital. Rural- focus of service.	Community Transport contract management information	6 months	ICB Contract Lead

Financial Impact Assessment

Current spend (£ / £k / £million)	see summary tables opposite			
Implementation date	Phased from Q3 (2024/25) to 2026/27

BLM/CIR	-965,322	0	-965,322
Total excluding BLM/CIR	8,634,743	609,067	9,243,810

Revenue impact

The overall impact of on the future revenue requirements to deliver the model is set out in the table below. The proposed change represents a net saving of \pounds 4.09 million against a do-nothing position.

£	Baseline (£k)	Forecast (£k)	Proposed (£k)	Proposed vs Forecast (£k)
	(current)	(do-nothing)		
Medical – consultants	24,092	26,787	25,768	1,019
Medical – M/G	12,593	13,256	14,570	-1,314
Medical – Juniors	7,966	8,129	8,086	42
Nursing	67,065	70,516	66,164	4,352
TOTAL	111,717	118,687	114,588	4,099

				Engagement Assessment		
*See Impact Matrix tab for guidance						
Area Note - you can select more than one box per area if a change may have multiple impacts e.g. both positive and negative (Click on box to see prompts)	Positive Impact Neutral Impact		Negative Impact	Description of impact (add hyperlink or add copy of document in documents tab)		
Good practice				We will be able to meet clinical and constitutional standards (see clinical effectiveness tab)		
Strategy	V			The proposal has been designed and developed in line with current regional and national strategies.		
Reputation	~			Whilst there are many positives to be gained from the proposed model of care, there is a chance that stakeholders may see the proposed change as services being taken away from which could have a negative impact on the reputation of the local NHS.		
Patients / Carers	\[\] \] \]			Significant positive benefits for patients/carers as the quality of care they will receive will be much better through this proposed model of care, however, some may need to travel further to access it. (See patient experience tab)		
Staff				Significant positive benefits for staff through this proposed model of care, for example, increased career and training lopportunities, rotational posts and opportunities to work in larger teams, however, some may need to travel further to get to work. (See workforce tab)		
General public	~			Significant positive benefits for the general public as the quality of care they will receive will be much better through this proposed model of care, however, some may need to travel further to access it. (See patient experience tab)		
Protected/other vulnerable groups	~			Significant positive benefits for people with protected characteristcs/vulnerable as the proposed changes increase lequity in access across the region, meaning the system is also easier to navigate, however, some may need to travel further to access care. (See patient experience tab and Equalities tab)		
Relationships	~			The programme has been clinically led from the start, with local authorities, partners and providers all being involved at every stage.		

Level of Engagement / Consultation	Level of engagement required Please agree level of engagement activity required with your local communications and engagement lead	Examples NB: examples need to be assessed individually and are subject to local circumstances	
No engagement	A small scale change or new service Affecting small numbers and/or having low impact Affecting small numbers and/or having low impact There is good evidence that the change will improve or enhance service provision No obvious impact on patient experience No requirement for patient information Stakeholders have little or no influence over the change No obvious impact on organisational reputation Protected groups are not disproportionally affected by the change Low or no resistance from other key stakeholders	Moving a service out of the hospital into multiple community settings	
Level 1 Information giving	A small scale change or a new service Affecting small numbers and/or having low impact There is good evidence that the change will improve or enhance service provision Affecting small numbers and/or having low impact Affecting small numbers Affecting small numbers	The merger of services where there is either an improvement or no change to the services being offered service users Extending the hours of a service	
Level 2 Minor change	A small/medium scale change or a new service Affecting low numbers of people Often requires a small engagement (4-6 weeks)	Changing or reducing the hours of a service	
Level 3 Significant change	 A significant service change Affecting large numbers of people and/or having a significant impact on patient experience A significant change from the way services are currently provided Potentially controversial with local people or key stakeholders A service closure Limited information about the impact of the change Requires a significant engagement (3 months) 	A significant change to the way a service operates (such as a referral criteria or location)	
Level 4 Major change	 A major change that requires formal consultation and follows NHS England guidance Affects majority of the local population and or having a significant impact on patient experience A substantial change from the way services are currently provided High risk of controversy with local people or key stakeholders A service closure Limited information about the impact of the change Requires consultation (3 months+) and potentially pre consultation engagement 	A major transformation of a large service The proposed closure of a large service following a national directive	

Any additional comments

The service review has been clinically-led and, as a result, has included consideration of a wide range of potential models of care put forward by clinical teams. The programme has looked at best practice around the UK and beyond and used evidence and data to drive the development of potential models of care. Whilst investment in our buildings is a critical enabler of change, the programme has prioritised the development of effective models of care and developed estates plans around the clinical models rather than the other way around. Work has been undertaken in partnership with colleagues across the health and care system to ensure we are designing solutions that support joinee up care across the system. Programme plans, setting out objectives, processes, timescales and resources, have been developed and refreshed throughout the programme to ensure effective delivery and respond to changing external circumstances, in particular the COVID-19 pandemic.

A transparent, collaborative and inclusive approach has been adopted at all stages of the process, ensuring engagement with key stakeholders. The approach to evaluating the potential models of care has considered the levels of human, physical and financial resource expected to be available. Potential models of care have been developed with a focus on the possible options for the future provision of urgent and amergency care and maternity, neonatal care and access the Humber region. The programme has focused on developing models of care that deliver as much care at or close to home as possible. Throughout the programme all partners have maintained their commitment to provide acute hospital services that are patient-focussed, safe and sustainable, meeting the needs of our population both now and in the future

Data Protection Impact Assessment

Scree	ning Questions	Tick if yes
1	Will the project involve the collection of new identifiable or potentially identifiable data about individuals?	
2	Will the project compel individuals to provide data about themselves or involve the processing of personal data not obtained directly from the individual? i.e. where they will have little awareness or choice or where it is impossible, or would involve disproportionate effort, to inform the individuals that the processing is taking place	
3	Will identifiable data about individuals be shared with other organisations or people who have not previously had routine access to the data?	
4	Are you using data about individuals for a purpose it is not currently used for or in a new way? i.e. using data collected to provide care for a service evaluation; data matching where data obtained from multiple sources is combined, compared or matched.	
5	Where data about individuals is being used, would this be likely to raise privacy concerns or expectations? i.e. will it include health records, genetic data, criminal records or other information that people may consider to be sensitive and private and may cause them concern or distress.	
6	Will the project require you to contact individuals in ways which they may find intrusive? i.e. telephoning or emailing them without their prior consent.	
7	Will the project result in you making decisions in ways which can have a significant impact on individuals? i.e. will it affect the care a person receives? Is it based on automated decision making (including profiling)?	
8	Does the project involve you using new technology which might be perceived as being privacy intrusive? i.e. using biometrics, facial recognition, Artificial Intelligence or tracking (such as tracking an individual's geolocation or behaviour)	
9	Is a service/processing activity being transferred to a new supplier/organisation (or re-contracted) at the end of an existing contract	
10	Will the project involve systematic monitoring of a publicly accessible area on a large scale? i.e. use of CCTV	
11	Will the project involve the targeting of children or other vulnerable individuals? i.e. for marketing purposes, profiling or other automated decision making	

If you have answered yes to any of these questions, you will need to seek advice from the ICB Information Governance specialist and complete the full data protection impact assessment as provided at the link below:

Assessment completed

None of the above apply to the programme as a whole, however, individual data protection impact assessments will be undertaken for relevant projects within the programme of implementation to ensure full compliance with data protection duties.

Select link below to go to the guidance for each area: Patient Experience Patient Safety **Clinical Effectiveness** Equality **Workforce** Sustainability Other Useful Links and Resources

Patient Experience Guidance		
	Areas to consider	Questions/examples
Patient Reported Experience	National surveys, complaint themes and trends, PALS data, FFT	Based on what we know patients are telling us about the service/area, will the proposal have a positive or negative impact on patient experience?
Patient Choice	Informed choice, choice of provider, choice of location	Will patients have more choice or less choice? Can you include any mitigations if there is a reduction in choice i.e. through personal health budgets?
Patient Access	care	If a service is moving location will access be impacted? Have thresholds changed and therefore may have positive/negative impact on access to a service.
Respect and Compassionate and Personalised Care Agenda	Patient dignity and respect, empathy, control of care, patient/carer involvement, care that is tailored to the patient's needs and preferences Patient-centred values, expressed needs, cultural issues, independence of service users quality-of-life issues and shared decision making	Will this support a patient centred care approach?
Responsiveness and Co-ordination	Communication, waiting times, support to patients Coordination and integration of care across the health and social care system	Will the waiting times increase or decrease? Will there be support to patients and/or carers when they need it? Will care be seamless across providers
Promotion of self-care and support for people to stay well	People with long term conditions, social prescribing initiatives, social isolation, help and advice elements Information that will help patients care for themselves away from a clinical setting, and coordination, planning, and support to ease transitions	Does the proposal support/promote self care? Will is improve transitions and conytinuity?
Involvement	involvement of family, friends, carers and significant others in decision making	Will this support the needs of others as care givers?
Information and Communication		Will this support good communication, education and information sharing?
Emotional support	fear and anxiety about such issues as clinical status, prognosis, and the impact of illness on patients, their families and their finances;	Will this support improvements in emotional support for service users and carers?
Other	Is there anything else that may impact, positively or negatively, on the patient/carer experience?	
Patient Safety Guidance		
	Areas to consider	Questions/Examples
Preventable Harm	Infection prevention (HCAI), waiting times/delays, staffing	Based on the information available will the proposal have a negative or positive impact on patient safety? Decrease incidents? Decrease delays in treatment/diagnosis?
Robustness of Systems and Processes	Governance, Clinical Audit, CQC standards, NICE and Royal College compliance, Surgery Checklist, Accreditation	Is the proposal compliant with national /local guidance or processes?
		Will the environment of the proposal have an impact? Improved
Environment	Cleanliness, suitability, upkeep, equipment, potential fro Healthcare associated infections	facilities?

If the proposal has a positive variation in care will this lead to wider health inequalities?

- Services should be provided, regardless of age, on the basis of clinical need alone.
- tackling known health inequalities experienced by younger / older people, for example, in relation to isolation and older people.

DISABILITY

- Services tackling known health inequalities experienced by disabled people, for example, people with learning disabilities have a shorter life expectancy than the
- Reasonable steps that can be taken to accommodate the disabled persons requirements, including:
- o Physical access
- o Format of information
- Time of interview or consultation event 0
- o Personal assistance
- o Interpreter
- o Induction loop system
- o Independent living equipment
- o Content of interview of course etc.
 - Steps to make reasonable adjustments to service delivery and employment practices to ensure 'accessible to all'.

PREGNANCY AND MATERNITY

- Equal access to recruitment, personal development, promotion and retention for female employees who are pregnant or on maternity leave.
- Equality of opportunity in relation to health care for women irrespective of whether they are pregnant or on maternity leave or breast feeding.
- Unlawful to treat a woman unfavourably because she is breast feeding.

ETHNICITY

- The provision of an interpreter for people whose first language is not English.
- Written communication support / the use of language particularly jargon or colloquialisms etc.
- Services tackling known health inequalities experienced by different ethnic groups, for example, high rates of diabetes amongst the Bangladeshi community etc.

RELIGION / BELIEF AND CULTURE

Prayer facilities for service users and staff.

Guidance

ŀ	Dietary requirements.
	Gender of staff when caring for patients of the opposite sex.
•	Respect for requests from staff to have time off for religious festivals.
•	Respect for dress codes
ŀ	Respect in terms of religion, belief and culture.

SEX

Equal access to recruitment, personal development, promotion and retention.

- Childcare arrangements that do not exclude a candidate from employment and the need for flexible working.
- The provision of single sex facilities, toilets, wards etc.

Equality of opportunity in relation to health care for individuals irrespective of whether they are male, female, single, divorced, separated, living together or married. SEXUAL ORIENTATION

- Services tackling known health inequalities experienced by LGBT people, for instance, a higher rate of mental health problems.
- Recognition and respect of individual's sexuality.
- Recognition of same sex relationships in respect to consent, next of kin, visiting etc.
- The maintenance of confidentiality about an individual's sexuality.

MARITAL STATUS

- Equal access to recruitment, personal development, promotion and retention.
- Equality of opportunity in relation to health care for individuals irrespective of whether they are single, divorced, separated, living together or married or in a civil

GENDER REASSIGNMENT

- The process of transitioning from one gender to another.
 - Equal access to recruitment, personal development, promotion and retention.
 - Equality of opportunity in relation to healthcare for individuals irrespective of whether they were male or female, Trans or 'cis' or 'whether they identify with the The maintenance of confidentiality about an individual's trans identity/history

CARERS

- Reasonable steps that can be taken to accommodate carer's requirements, such as:
- Time of meetings or interviews
- o Flexible working
- Carer's assessments

HUMAN RIGHTS ACT

Links are provided below to each right:

Article 2: Right to life

- Article 3: Freedom from torture and inhuman or degrading treatment
- Article 4: Freedom from slavery and forced labour
- Article 5: Right to liberty and security
- Article 6: Right to a fair trial
- Article 7: No punishment without law
- Article 8: Respect for your private and family life, home and correspondence
- Article 9: Freedom of thought, belief and religion
- Article 10: Freedom of expression
- Article 11: Freedom of assembly and association
- Article 12: Right to marry and start a family
- Article 14: Protection from discrimination in respect of these rights and freedoms
- Protocol 1, Article 1: Right to peaceful enjoyment of your property
- Protocol 1, Article 2: Right to education
- Protocol 1, Article 3: Right to participate in free elections
- Protocol 13, Article 1: Abolition of the death penalty

Workforce Guidance

Areas to consider	Specific details	Examples
Effective prioritisation and management of workload	Triage and pathways, wider system impact, staff ability to deliver their role effectively and appropriately	Will the proposal impact on the workload of staff? Will staff be able to deliver the same standard of care?
Staff experience as a result of workforce changes	Career progression, specialisation, deskilling/upskilling , staff morale and satisfaction	Will staff be impacted? Does the change enrich staff roles and allow progression?
Contractual obligations	TUPE implications, impact on terms and conditions, recruitment processes or options, safe staffing levels	
Workforce diversity	Differential impacts on staff groups with protected characteristics	Shift patterns longer than childcare provision? Does policy/service give due consideration to culture and beliefs of staff?
Workplace	The organisations commitment to high quality workplaces, aiming to be employers of choice, location and facilities	
Sustainability of service due to workforce issues	Resilience and skills, recruitment, retention, career pathways	
Other	Is there anything else that may impact, positively or negatively, on the workforce?	

Sustainability = how to meet the needs of the current generation without compromising the ability of future generations to meet their needs.

Sustainability

This area includes waste and pollution, recycling, use of resources, ethical purchasing, biodiversity, provision of green spaces. Will this course of action increase the amount of non-recyclable waste? Increase air pollution?

Current issues for the NHS include recycling of unused pharmaceuticals, safe disposal of medical waste, use of anaesthetic gases, purchasing of surgical gloves, and engaging in ethical purchasing that does not harm biodiversity (eg no palm oil) or exploit workers in other countries.

CO2 Reduction

Does this course of action increase or decrease the use of fossil fuels (gas, oil, coal, petrol)? Does it increase or reduce the amount of travel? Will buildings become more efficient, better insulated, use less heating/ air conditioning?

Climate Change Adaptation

Does this take into account climate change risks for the area (increased flooding, higher summer temperatures)?

Rural Proofing

the CCC's population live in m vill this c2 Ir d disability l

reduced ability to drive and greater dependence on public transport.

High Risk

			Opportunity and Consequence
Impact		Score	The proposed change is anticipated to lead to the following level of opportunity and/or consequence:
	5	Excellence	Multiple enhanced benefits including excellent improvement in access, experience and/or outcomes for all patients, families and carers. Outstanding reduction in health inequalities by narrowing the gap in access, experience and/or outcomes between people with protected characteristics and the general population. Leading to consistently improved standards of experience and an enhancement of public confidence, significant improvements to performance and an improved and sustainable workforce.
tive	4	Major	Major benefit leading to long term improvements and access, experience and /or outcomes for people with this protected characteristic. Major reduction in health inequalities by narrowing the gap in access, experience and /or outcomes between people with this protected characteristic and the general population. Benefits include improvements in management of patients with long term effects and compliance with national standards.
Positive	3	Moderate	Moderate benefits requiring professional intervention with moderate improvement in access, experience and /or outcomes for people with this protected characteristic. Moderate reduction in health inequalities by narrowing the gap in access, experience and /or outcomes between people with this protected characteristic and the general population.
	2	Minor	Minor improvement in access, experience and /or outcomes for people with this protected characteristic. Minor reduction in health inequalities by narrowing the gap in access, experience and /or outcomes between people with this protected characteristic and the general population.
	1	Negligible	Minimal benefit requiring no/minimal intervention or treatment. Negligible improvement in access, experience and /or outcomes for people with this protected characteristic. Negligible reduction in health inequalities by narrowing the gap in access, experience and /or outcomes between people with this protected characteristic and the general population.
Neutral	0	Neutral	No effect either positive or negative
	-1	Negligible	Negligible negative impact on access, experience and /or outcomes for people with this protected characteristic. Negligible increase in health inequalities by widening the gap in access, experience and /or outcomes between people with this protected characteristic and the general population. Potential to result in minimal injury requiring no/minimal intervention or treatment, peripheral element of treatment suboptimal and/or informal complaint/inquiry
	-2	Minor	Minor negative impact on access, experience and /or outcomes for people with this protected characteristic. Minor increase in health inequalities by widening the gap in access, experience and /or outcomes between people with this protected characteristic and the general population. Potential to result in minor injury or illness, requiring minor intervention and overall treatment suboptimal
Negative	-3	Moderate	Moderate negative impact on access, experience and /or outcomes for people with this protected characteristic. Moderate increase in health inequalities by widening the gap in access, experience and /or outcomes between people with this protected characteristic and the general population. Potential to result in moderate injury requiring professional intervention.
	-4	Major	Major negative impact on access, experience and /or outcomes for people with this protected characteristic. Major increase in health inequalities by widening the gap in access, experience and /or outcomes between people with this protected characteristic and the general population. Potential to lead to major injury leading to long-term incapacity/disability
	-5	Catastrophic	Catastrophic negative impact on access, experience and /or outcomes for people with this protected characteristic. Catastrophic increase in health inequalities by widening the gap in access, experience and /or outcomes between people with this protected characteristic and the general population. Potential to result in incident leading to death, multiple permanent injuries or irreversible health effects, an event which impacts on a large number of patients, totally unacceptable level or effectiveness of treatment, gross failure of experience and does not meet required standards

ICS LSOA'S IMD 2019

Lower Super Output Areas (LSOAs) are small geographic areas produced by the ONS to enable reporting of small area statistics in England and Wales. There are 32,844 LSOAs in England, each having a population of approximately 1,500. Please see below a list specifically for the ICS places, most to least deprived and the rank out of the 32,844 LSOAs nationally. To the left is a map showing ICS LSOA Level IMD scores by quintiles.

LSOA code (2011)	LSOA name (2011)	Local Authority District code (2019)	Local Authority District name (2019)	Index of Multiple Deprivation (IMD) Rank	Index of Multiple Deprivation (IMD) Decile
