Section 1. Grounds for mandatory exclusion

Please answer the following questions in full. Note that every organisation that forms part of your group/consortium, as well as every organisation that is being relied on (including subcontractors being relied on) to meet the selection criteria must complete and submit responses to Provider Information (above) and the declarations in Section 1-3 (below)

Question No.	Question	Response
1.1(a)	 Grounds for Mandatory Exclusion Within the past five years, anywhere in the world, have you or any person who: is a member of the supplier's administrative, management or supervisory body, or has powers of representation, decision or control in the supplier¹, or been convicted of any of the offences within the summary below and lister in full on the webpage²

Depending on your particular structure, intermediate parent companies who do not have a direct shareholding, directors or members of an executive board of your immediate parent company (for example in the case of an SPV set up specifically to bid for a particular contract), and holders of mortgages or liens may be covered. It isn't necessary to identify which entities and persons you think are covered but you must be satisfied that your declaration is made in respect of all of those that are covered.

¹see Notes for Completion For the mandatory exclusion grounds only, you must complete the declaration for all relevant persons and entities. There are two categories of persons and entities:

The first category is members of your administrative, management or supervisory board; secondly, entities and persons who have powers of representation, decision or control. You must decide, depending on the nature and structure of the entity or person who is bidding, which entities and persons this applies to in your particular circumstances. Clearly, members of your administrative, management or supervisory board should be easily identifiable and will cover company directors (or equivalent for other types of corporate entities) and members of an executive board.

The second category of those with powers of representation, decision or control, is likely to be more complicated. As an illustration, entities or persons with 25% or more shareholding (or equivalent for other types of corporate entities) are likely to have powers or representation, decision or control, although those with a lower shareholding may still have the relevant powers depending on their particular rights. Similarly, your ultimate parent company (or equivalent for other types of corporate entities) is likely to have powers of representation, decision or control.
